PRODUCT LIST

Our large range of products includes the railway program, road equipment program, agricultural program, power industry program, gravel for wide use and specific client custom-designed products.

Railway	
1.	Tie JŽ-70K(without assembly railroad fittings)
2.	Platform JŽ
3.	Slabs for road crossings over railways in the level (medium)
4.	Slabs for road crossings over railways in the level (extreme)
5.	Reinforced concrete channel, dim. 100/50/25 cm
6.	Reinforced concrete channel, dim. 100/35/25 cm
7.	Reinforced concrete channel cover slab 50/50/5 cm
8.	Reinforced concrete channel cover slab 50/35/5 cm

Road building	
1.	Gray concrete curbs JUS UN2060 120/180/800 mm
2.	Gray concrete curbs JUS UN2060 120/180/400 mm
3.	Gray concrete curbs JUS UN2060 180/240/800 mm
4.	Gray concrete curbs JUS UN2060 180/240/400 mm
5.	Gray concrete curbs JUS UN2060 200/240/800 mm
6.	Gray concrete curbs JUS UN2060 200/240/400 mm
7.	Gray gutter, dimensions 70/50/20 cm
8.	Gray gutter, dimensions 40/40/12 cm
9.	Gray slab 40/40/5 cm
10.	Gray slab 40/20/5 cm

Vineyards	
1.	Prestressed vineyard post, dimensions 7,5 x 9,0 x 240 cm with rounded edges

Power industry	
1.	Low voltage concrete pole 9/200
2.	Low voltage concrete pole 9/315
3.	Low voltage concrete pole 9/400
4.	Low voltage concrete pole 9/630
5.	Low voltage concrete pole 9/1000
6.	Low voltage concrete pole 9/1600
7.	Power-line concrete pole 12/250
8.	Power-line concrete pole 12/315
9.	Power-line concrete pole 12/400
10.	Power-line concrete pole 12/630
11.	Power-line concrete pole 12/1000
12.	Power-line concrete pole 12/1600

Other products	
1.	Plain masonry block dim.20/20/40 cm
2.	Plain masonry block dim.10/20/40 cm
3.	Natural gravel
4.	Granulated gravel 0-4 mm
5.	Granulated gravel 4-8 mm
6.	Granulated gravel 8-16 mm
7.	Granulated gravel 16-32 mm
8.	Rejects >32 mm

Custom-designed products
<p>We produce the elements upon the specific orders and according to the client's technical documents, made of reinforced and prestressed concrete for all types of structures in building construction, industrial construction and civil engineering (prefabricated foundation footing, posts, main girders, rafters, parapets, façade elements, partition walls). The only condition is that the elements can be transported from the factory to the building site by road or railway.</p>
